

What our clients Have to say:

"We've been using Trident Security for over a year now and we're very impressed with the company overall. All representatives from the firm have been punctual throughout the duration of our relationship, from the first initial meeting, right up to staff starting their shifts. They have a diverse group of people under their employment that offer a friendly, approachable, reliable and hard-working service. They're an asset to any organisation that works with them and they've exceeded all our expectations from what we're used to from our previous security firm. Even at short notice, Trident have always been able to provide staff. We've been very impressed with how organised the company is. They go above and beyond each time and carried out a comprehensive risk assessment of the site and offer our team a reassuring presence. It's really refreshing working with a security company like Trident."

"We've been using Trident Security for almost 4 years now and we're completely satisfied with the professional service received. We have several industrial sites which are covered by the Trident team and found them to be completely trustworthy, reliable and very respectful. We recommend them to all our clients."

TRIDENT SECURITY

Covering all spectrums of security

"Trident Security team are well dressed, punctual and professional. We've never had a problem or a complaint on our doors since working with them. We highly recommend them for anyone who needs top quality and professional security for a licensed venue."
